

Client Relationship Summary as of May 12th, 2021

LexION Capital ('LexION', 'we', 'us', 'our', or 'the firm') is an investment advisor registered with the Securities and Exchange Commission. Brokerage and investment advisory services and fees differ and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

We offer investment advisory services. We typically utilize bonds, equities, ETFs, mutual funds and alternative investments to build diversified portfolios for each client. We offer portfolio management, retirement planning, financial planning, and sub-advisory services. As part of our standard services to clients, we monitor client portfolios on an on-going basis and make adjustments consistent with their investment objectives and goals. We do not make adjustments based on market timing or hunches but will periodically rebalance or harvest taxes losses when necessary.

When we manage your account, we have discretionary authority which means our clients give us the authority to make trades when we feel it is appropriate, without consulting the client in advance. We generally require a minimum account size of \$1,000,000. For additional information, please see our Disclosure Brochure (Form ADV Part 2A), Items 4, 7, 8 & 13.

Conversation Starter. Ask your financial professional:

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

What Fees Will I Pay?

Our fees are based on a percentage of client assets that we manage and do not vary based on investment type. We charge our fees quarterly in advance. The more assets you have in the account, the more you will pay us, therefore we have an incentive to encourage you to increase the assets in your account in order to increase our fees. We charge our fee even if we do not buy or sell assets in your account, or if your account is profitable or not. Some investments (such as mutual funds and exchange traded funds) impose additional fees that will reduce the value of your investment over time. Assets managed by a sub-advisor are subject to the sub-advisor's management fee as well as our fee. You will pay a transaction fee when we buy and sell an investment for you. You will also pay fees to an unaffiliated custodian (such as TD Ameritrade, Charles Schwab, or Fidelity) that will hold your assets (called "custody"). We do not receive any portion of these fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investment over time. Please make sure you understand what fees and costs you are paying. For additional information, please see our Disclosure Brochure (Form ADV Part 2A), Item 5, Parts A through D.

Conversation Starter. Ask your financial professional:

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment advisor? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we are required to act in your best interest and not put our interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means: retirement Plan Rollovers to an IRA - our advisory fees may be higher than your retirement plan fee, margin – margin increases the account size subject to our advisory fee. For additional information, please see Item 10 of our Form ADV, Part 2A brochure.

Conversation Starter. Ask your financial professional:

How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

LexION Capital's financial professionals' compensation is salary based with no compensation based on sales of specific products or sales quotas. No employee of the firm receives commissions. All employees of the firm are eligible for discretionary awards based on firm wide asset growth objectives. A conflict of interest exists where an employee could be motivated to increase assets at the firm irrespective of the client's best interest, however the firm's practice is to always act as fiduciary when working with our clients. For additional information, please see Item 14 of our Form ADV, Part 2A brochure.

Do your financial professionals have legal or disciplinary history?

No. Visit Investor.gov/CRS for a free and simple search tool to research our firm and our financial professionals. For additional information, please see Item 9 of our Form ADV, Part 2A brochure.

Conversation Starter. Ask your financial professional:

As a financial professional, do you have any disciplinary history? For what type of conduct?

Additional Information

For additional information about our services, see our Disclosure Brochure (Form ADV Part 2A) and Customer Relationship Summary (Form CRS) brochures at adviserinfo.sec.gov and the Brochure Supplement (Form ADV Part 2B) your financial professional provides. You can reach us at info@lexioncapital.com or 212-767-0799.

Conversation Starter. Ask your financial professional:

Who is my primary contact person?

Is he or she a representative of an investment-adviser or a broker-dealer?

Who can I talk to if I have concerns about how this person is treating me?
